LUNA SHOWER TRAY

Designer: Ganesh Poggi Madarena

Shower tray made from a single block of solid travertine. Its circular shape resembles a full moon. The cut of the travertine in cross cut, visible on the elevation, leaves a cloudy effect on the flat part of the shower tray. Similar to planetary rings, the concentric circular grooves allow a perfect grip to the surface, avoiding the risk of falls.

DATA SHEET

DIMENSIONS	Ø 1300 mm x h 160 mm
WEIGHT	-
