

# LUPI PIETRE

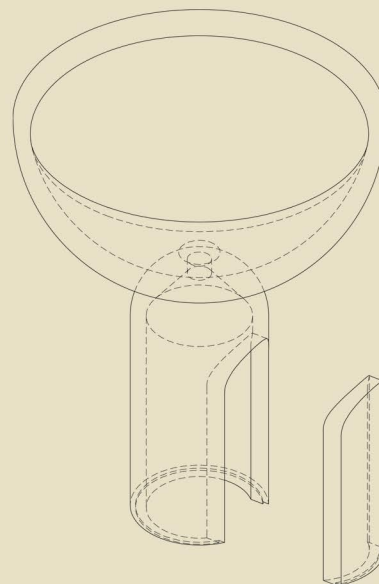

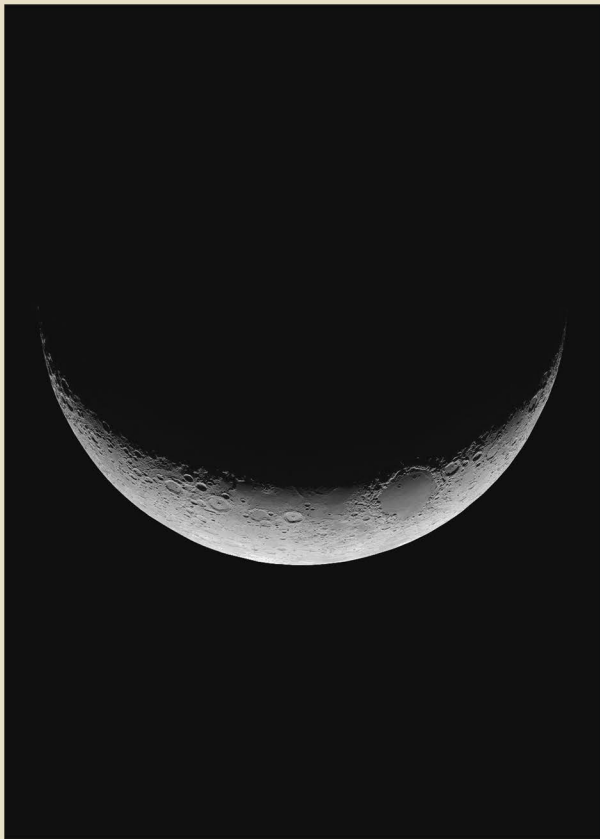

## KÓSMOS

### LUNA WASHBASIN

Designer: Ganesh Poggi Madarena

Freestanding washbasin made from two blocks of solid travertine assembled.

The basin, with its characteristic crescent shape, rests on a cylindrical support. Its interior is carved to accommodate the drain pipes, and is accessible through a removable panel that follows the grain of the marble. The travertine in cross cut, visible on the elevation, leaves a cloudy effect on the inside of the basin.

## DATA SHEET

DIMENSIONS	Ø 700 mm x h 900 mm
WEIGHT	-
